General Report Comments: Upon arrival i met Sfiso who is the owner of the dogs. The dogs are very aggressive and he can't control the dogs.

For safety reasons he requested i stand outside the house and he will show me everything i need. I shared a nature of complain and he laughed claiming he knows the complaint. He claimed it a neighbor had an argument with him on the past week and this neighbor called him a Kaffir .

4 dogs were roaming freely on the property and i could see adequate kennels for the dogs. The dogs appears to be in a good condition and the living environment appears to be clean. Sfiso in total has four adult dogs on the property and two puppies. The dogs bark when they seen a stranger at the gate. Sfiso that showed me medication he uses on the dogs on the dogs including avomac for skin problem control. Pictures attached and the dogs are also vaccinated for rabbies. While i was busy having a conversation with Sfiso he told me that the neighbor was busy looking over the wall. The dogs were all roaming freely and they don't appear to be neglected.

I offered a Sterilisation and he told me that he is breeding with the dogs . He further stated that his property won't have 8 adult dogs.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962. There is no further action that can be taken in terms of the Act. On the inspection there was no concern observed. The case can be closed.
