General Report Comments: Upon my arrival the dog was back in its property. The dog was confined in the courtyard 4m x 10m wide. The property is full fenced and gated. The owner said he did not know how the dog got out. He owns 2 dogs bullterrier and the pit bull. He showed us the dogs vaccination card,dog was last vaccinated in 26 march 2022. The pit bull male is not sterilized. He said this was the first time his dog got out and harm other dog. He said the monkeys are worrying his dog. We advised him to surrender the dog if he could not control him ,sterelize the dog or make sure that the fence has no holes, he said he was going to discuss it with his family and come back to me. I gave him my contact details. On Thursday I called the owner to find out what was he going to do . He told me that he was going to give his dog to spca.
