General Report Comments: We saw approximately 45 dogs and some of the adults did have cropped ears and owners said they got the dogs like that. We were very happy to see that puppies had long ears. There were some adults with long ears which was also very nice to see. Dogs were caged but were frequently taken on walks. When they were in the cages they were very calm there was no aggression observed. They all had water available at all times and it was announced every few minutes to ensure that dogs have water and that they are exercised and to keep them in shame. They also announced that it is illegal to have dogs ears cropped after 2022 so hemde puppies with long ears. There were no welfare concerns and we did commend the owners for looking after their dogs and ensuring that all was in order. We also commended the long ears. Stacking od the dogs went well. None of the dogs were tired and they owners did pack up at 4 and some stayed maybe half an hour later. All went well. No warnings needed to be issued.
