General Report Comments: Upon arrival I met Mr Naidoo who is a family and he doesn't leave on the property.

I shared why i came to the property and he granted me access. There was one dog seen on the property that was in a good condition. The dog has access to water and shelter. The property is separated one dog that escaped is kept on the separate entrance. They also let the dogs roam freely together however he believes that someone opened the gate without noticing and the dog in question ran outside. The property is adequately fenced and this is a big property. The dog that was seen on property has access to adequate shelter and 2 kennels were seen that can protect the dogs from all weather elements. The property is adequately fenced and there are no holes seen on the fencing.

The living environment is clean and the grass is mowed. There is no contravention of the Animals Protection 71 of 1962 and there is no further action that can be taken in terms of the act.

I then told Mr Naidoo that he must tell the owner that the dog that escaped must be kept on the separate entrance if someone is driving in or out.
