General Report Comments: Upon arrival I hooted and the gate opened. I went into the house and met Smangele. I shared a nature of complain and confirmed i saw the dog walking in.

When you enter the main gate. The dog in question is on the left handside when you enter the property. The dog name is Smokey and the dog was observed clinically alart tethered with a rope of about 2 meters. The dog has access to adequate kennel and water. Smokey appears to be in a good condition.

I issued a notice to comply stating
Smokey was observed tethered with a rope and cannot express animal natural behavior.

Provide a running chain for your dog within 7 days. So the dog can exhibit animal natural behavior.
