General Report Comments: Upon arrival i hooted and shouted but no one at home.

When i was standing at the gate i noticed that the dog has been moved to the right hand side of the property when you're standing at the main gate. It now placed next to the river side. The dog is clinically alert and it is placed on a running chain that is about 10 metres long. The dog in question can exhibit animal natural behavior and has access to adequate kennel.

The living environment is clean and hygienic.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken. Case closed until further notice.
