General Report Comments: Upon arrival I met Litha who granted me access to enter the property.

I shared a nature of complain and he explained that the dogs went out when his uncle was leaving the property.

He then told me the dogs are naughty but they went outside for less than 10 minutes and came back. The dogs in question were observed and both dogs appears to be in good health. The dogs are clinically alert and no dog was observed thin or underweight. The living environment is clean and hygienic. The dogs have access to portable water and adequate shelter that can protect the dogs from all weather elements.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken regarding the act. Case can be closed.
