General Report Comments: Upon arrival i met Philiswa who granted me access to enter the property.

The property is separated into to sections. Philiswa wasn't home due to family matters but he's young brother was looking after the dogs while she was away. The dogs managed to escape according to Philiswa cos both gates were opened and she received a call from one of the neighbors that her dogs are roaming around. That when she called her brother to go out and look for the dogs. The dogs appears to be in a good condition and they are clinically alert. They have access to shelter and water is provided. For safety reasons she requested i stand on the other section as she doesn't trust Dobby that is very defensive towards her.

I issued a notice to comply
Ensure your dogs are always confined at your property at all times. If they should attack anyone or any animal/s you will be held liable for the expenses.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962. There is no further action that can be taken in terms of the law.
