General Report Comments: Upon arrival i met Ntombifuthi and shared i came to follow up on a dog that was admitted for treatment at the SPCA

she told me to walk around i'll see the dog. I walked around the house and the dog was roaming freely at the backyard. The dog have access to adequate wooden kennel and the living environment is clean. The dog has healed and it appears to be in a good condition having access to portable water. One pitbull was put to sleep as it was badly injured at the SPCA.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962. The dog is sterilized and there is no further action that can be taken.
