General Report Comments: Upon arrival i met Moosa who is a worker and he went to call Shaun after i shared a nature of complaint.

Shaun arrived and he granted me access to enter the property. There is one dog that was observed roaming freely in the front yard. The dog is old but clinically alert and appears to be in a good condition. It has access to portable water and adequate shelter. Bedding is also provided where the dog sleeps. The living environment is clean and hygienic.

We then went to the house to the separate entry and i observed a 2nd dog that is in a good condition having access to water and adequate shelter. The living environment is clean and hygienic. These dogs are separated when Moosa is working on site as he is afraid of the Bull terrier.

There is no contravention of the animals protection act 71 of 1962. I strongly believe the case can be closed as there is no further action that can be taken regarding the act.
