CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Upon arrival i hooted and pressed the intercom until Chris Came out

I shared a nature of complaint and he demanded to know the complaint. I explained to him it against our policy he then told me he knows the complaint and granted me access to enter the property.

I observed 2 dogs roaming freely on property and the dog named Zuno was limping a bit. He then showed me an ointment he's applying to the wound and bendar. The dog can apply pressure at the leg. The dogs appears to be in good health. They have access to adequate kennel and water is provided for the dogs. I then observed 9 puppies that appears to be in a good condition. They have access to shelter and the teeth have grown so the owner is feeding the puppies adequate food.

The living environment is clean and hygienic. I then offered a Sterilisation and the owner agreed to sterilize the dog as he doesn't want many puppies. I tried to convince him to sign the puppies over and he will think about it

The dogs are given Nexguard for external parasites and they are brushed. There is no matted coat observed.
