General Report Comments: I contacted the complaint to get directions and this house is not closer to the main road.

Upon arrival I observed two dogs that are chained to the shelter. There is a big opening and the dogs cannot be protected from all weather elements. The dogs appears to be in a good condition and they have access to portable water. The living environment is clean and hygienic. There is no one home and the chains are tangle. The chains are 5 meters long and the dogs have adequate collar.
