General Report Comments: Upon arrival i met Louise and she granted me access to enter the property.

On my arrival there was a guy on the property that was mowing grass. I shared a nature of complaint and she became emotional that last weekend she buried her sister and her mother.

I then requested to see the dog. I observed the dog named Taquila roaming freely on property and clinically alart. The dog appears to be in a good condition and the coat appears to be brushed regular. The dog has access to shelter and there are no feaces observed. The dog appears to be well looked after and Louise stated that he normally groom her dog in December cos winter is very cold. The dog has access to 25 litres water at all times.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken. The dog in question is sterilized and in terms of the act no action can be done until further notice.
