General Report Comments: Upon arrival i hooted several times no response. I waited at the main gate approximately 15 minutes.

Snenhlanhla came out to give me attention. However she's scared of the dogs at the property as she is a worker.

I didn't enter the property and two dogs were observed in a good condition. Stricker is the dog in question and according to Snenhlanhla the dog named Stricker likes to escape. The dogs can only leave the property when someone opens the gate as the property is not separated. The dogs have access to shelter and the living environment is clean. No dog appears to be in injured and the dogs are very aggressive as they were wanted to bite me when i approached the gate. Both dogs are freely roaming on property and they are sterilized.

I issued a warning
To keep your animals inside your premises at all times.
