General Report Comments: Upon arrival i hooted and shouted. A woman who introduced herself as Zinhle came to the main gate and I shared a nature of complaint. She granted me access to enter the property.

Zinhle is a maid and the owners name is Themba. I observed 3 adult dogs in total and 3 puppies. 2 dogs were observed in a good condition and clinically alert. The dogs have access to adequate kennel and portable water is provided for the dogs. The living environment is clean

A female dog is underweight and has a litter of 4 puppies. Puppies were observed in a good condition and no puppy appears to be sick.

According to the maid she feeds 2 times a day and I educated that they must feed the mother dog 3 times a day as she appears to be underweight.

Chances are the mother dog has lost weight from giving birth and feeding the puppies. I then questioned why the dogs are reported to be on the road when the property is adequately fenced. Zinhle stated when the owner drives into the property the female dog likes to run to the main road and they try by all means to catch the dog if that incident happens.

I will follow up in a months time on the case to see if there are any changes.

ACTIONS

OTHER	Follow up on the weight.
