General Report Comments: Upon arrival i met Roy and shared a nature of complaint. He then granted me access to enter the property

We first went into the house where i observed a dog that was roaming freely . The dog was groomed and appears to be in a good condition. The dog has access to balcony and the house at all times. I then observed an indian minor that was in a good condition. Water is proved and the cage is clean. The dog has access to water at all time.

Roy then took me downstairs where the monitor is kept. The cage is adequate size as the monitor can climb the ladder to go upstairs on it cage. Enrichments are provided on the cage and portable water is provided. Monitor was observed in a good condition. The reason why the monitor is on the cage it because it is classed as a venomous species.

I strongly believe the case can be closed. There is no contravention of the Animals Protection Act 71 of 1962 and there is no further action that can be taken in terms of the act.
