General Report Comments: Upon follow up inspection. I hooted and the dog in question came to the gate.

Thabisos wife also came to the main gate. I shared that i came to do a follow up inspection based on the warning that was issued. She then stated she can't control the dog. However i observed the dog in question roaming freely and it appears to be in a good condition. The dog in question has access to shelter at all times and the living environment is clean. I then questioned Mrs Thedi regarding a Sterilisation and she stated they will sterilize the dog at the veterinarian.

The owner has complied to the warning that was issued and i strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 during this inspection and there is no further action that can be taken.
