General Report Comments: Upon arrival i met Nonhlanhla who is a maid.

I shared a nature of complain and she granted me access to enter the property. The dog is question was observed chain in a pole and the dog was under the shelter. The dog in question is named Golden and it appears to be in a good condition. According to Nonhlanhla the dog jump the fence and the gate on the property is faulty once it opens the dog runs outside. The living environment is clean and hygienic and water is provided.

I then questioned if the dog is sterilized and the dog is not sterilized. I further educated about the benefits of a Sterilisation and Nonhlanhla will speak to the owner.

I issued a warnings

- To untie/unchain animal/s immediately to roam freely inside the property or provide a running chain within 7 days.
- To contact SPCA inspector Lindokuhle on 0832701371 within 24 hours to discuss the concerns.

I further stated

Golden was observed on a static chain and he cannot express animal natural behavior. Provide a running chain within 7 days or surrender the dog to SPCA
