CHECKLISTS

General Report Comments: Upon arrival contacted the complaint to get clear directions regarding the dog in question.

She then explained that she doesn't know who the dogs belongs to. She pointed houses down the road asking me to investigate those houses.

I went in all the houses down the dead end and i couldn't find the dog in question. Most houses didn't have people and when you look across the river there are houses from a distance in a bush. There is no road that leads to those houses.

I then went back to speak to the complaint that she must confine the dog in their business area and call me. I will come to collect the dog cos it seems the dog will is roaming around in the mornings. I then gave her my number. I also explained to her that she must take a picture of the dog to make it easier if i ask around using the picture as a reference.

Case can be closed as I can't locate the house that should be investigated and i can't find the dog in question. The complaint doesn't know the owners of the dog or where to find the dog in question. Case closed until further notice or new information is presented by the complaint.

ACTIONS

OTHER Case closed until new information is presented.
