General Report Comments: Upon arrival i met Petros and he took me to the backyard.

I observed the dog in question clinically alart. The dog has access to adequete shelter and has access to portable water. The dog doesnt show any sign of discomfort and i conclude the dog is in a good condition. The dog is tethered with 10 meter rope and it can express animal natural behavior.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
