General Report Comments: Upon arrival i met Sihle

The dogs in question were observed clinically alert.

The dogs appears to be in a good condition and they are roaming freely on property. The dogs have access to adequate shelter and the living environment is clean and hygienic. I further explained to the owner that every 3 months he must give the dog nexguard and must deworm the dogs.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
