CHECKLISTS

General Report Comments: Upon arrival i met Mainus and shared a nature of complaint.

He granted me access to enter the property. He told me that when he came back from work and found the rabbit dead.

He further stated he didnt see any form of sickness when he left in the morning.

I then explained to him by keeping a rabbit in a veranda it can cause stress as there is no enrichments or hiding spaces provided. We then exited the property went to the river side where the rabbit is baried. He showed me the grave that he digged after 17h00 when he got home. Mainus is from Turkey and he didnt know how to look after the rabbit. He only bought it for her kids to have a pet

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken. The rabbit passed away and there is no animal at this property.
