General Report Comments: Upon arrival i met Mrs Naidu.

The dog in question was observed clinically alert. The dog now doesn't display any form of discomfort as it also tried to attack me. The dog has gained a lot of weight compared to the first visit.

The dog in question has access to shelter. Portable water is provided for the dog and the dog is roaming freely on property. The living environment is clean and it appears the medication is working.

I strongly believe the case can be closed there is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken

NFA

ACTIONS
