General Report Comments: Upon arrival I met Wayne and he allowed me to do a routine inspection

Birds:

The cages of birds are clean and hygienic. Non tip bowls are provided and patches are provided. The birds appear to be in a good condition and no overcrowding observed. African grey was fed seeds not sunflower seeds I then explained to him that he must avoid feeding sunflower seeds as they are not good for the immune system of the African grey

Fish:

No dead fish found. There is no overcrowding observed and enrichments are provided in every tank. Fish appears to be in a good condition. The tanks are clean

Rabbits

2 Rabbits were observed and hiding space is provided. Non tip water bowl is provided and no rabbit appears to be sick or injured. The cages are also clean and there is no harmonic smell.

Checklist attached.
