General Report Comments: Upon arrival contacted the complaint and he opened the gate. I then entered the complex and met the caregiver.

The caregiver took me to the owner of the dog and the owner is Londiwe. The dog is kept on a veranda which i failed to understand cos the dog is a hyperactive breed and i strongly believe the space isn't suitable for a collie x. The dog was observed in a good condition having access to water and kennel. I spoke to Londiwe that the manner of which the dog is confined is unacceptable the space must be extended as the dog was very aggressive.

I issued a warning

Mckenzie was observed confined in a small enclosure and she cannot express animal natural behavior. A manner in which Mckenzie is confined is causing unnecessary suffering . Extend the enclosure size within 7 days or move the dog to bigger section of the complex as the complex is well fenced. You can also rehome Mckenzie within a given time frame.
