General Report Comments: Upon arrival i hooted and Francis came out.

He then granted me access to enter the property. I shared a nature of complaint and he told me that the dog began to lose weight last year around November. He kept feeding the dog non stop hoping it will get better.

I then observed the dog named Jock. The dog appears to be underweight but alert and the dog has access to adequate kennel. Water is also provided and the living environment is hygienic. I then gave Francis two options to surrender the dog or sign it to SPCA. The dog was surrendered and one dog was left on the property that is in a good condition. The dog also tried to escape while Francis was opening the gate. I then requested to see dog food and Francis showed me Pellets

I issued a warning

In future any animal that is sick or injured under your custody must be taken to the veterinarian for assessment and possible treatment without any delays.

Failing to do so may lead into further actions taken against you for being in contravention of the animals protection act 71 of 1962 and allowing your animal to suffer unnecessarily.
