General Report Comments: Upon inspection i met Ann she granted me access to the grooming palour.

I walked around to check the holding kennels they are clean and hygienic. I also checked the blades they use to groom dogs and they are sharp. According to Ann they get sharpened once in 3 months and i advise they must be sharped monthly as the palour appears to be busy. I went to check the water temperature and it is acceptable, it not too hot for the animals. They use shampoo to wash the dogs and they use F10 to disinfect the blades.
