CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Upon my arrival I was met by the garden worker Mr Jeke,he didn't allowed me into the property,but I could see the dogs in the property.
There 3 rottweilers (2 x f 1 x m) all the dogs appeared to be in acceptable condition.
The male dog was confined at the back of the property because the female was on heat.
The male dog was the one who was making the noise.
I left the warning and request to contact,
Later that day the owner called me I told her about the complaint and I advised her about sterilization and told her that she must take the female dog on heat away or to the boarding facilities because the male dog was not going to stop making the noise .she told that she was going to take it to her relative.she didn't want to sterelize her dog .
I called the complainant the next-day she told me that the dog was gone and male dog was loose and not making noise.

ACTIONS

Warning Issued 6287
