General Report Comments: Upon arrival i met Byrons wife.

She granted me access to the property and i entered the house. It was clean, hygienic and there is no harmonic smell. I observed 10 cats in the house and they have access to the cattery at all time and every room of the house. I checked the cat litter and i can tell it is changed everyday. The cats have access to portable water and they are in good health.

I went outside and observed about 10 cats roaming freely. The cats appears to be in good health and water is provided.

In the morning i collected 4 cats for steri and the certificate are attached. I also donated cat food and 4 cats were signed over.

I strongly believe the case can be closed. There is no contravention of the animals act 71 of 1962 and there is no further action that can be taken.

I then questioned the wife if she's happy about the improvements. She is happy and according to her place smells fresh and thanked the SPCA for a visit
