General Report Comments: Upon arrival i hooted and shouted.

The guy named Ross granted me access to enter the property. I observed 2 dogs roaming freely having access to shelter. The living environment is clean and hygienic. Portable water is provided for the dogs.

I questioned him how the dogs get out and he replied the male jack russel gets out to visit house number 17 as the family relative lives there. The dog gets out when someone opens the gate.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
