General Report Comments: I met Dave he granted me access to enter the property.

The dogs are a bit aggressive if the don't know you. After spending more than 10 minutes on the property the dogs were friendly.

The dogs appears to be in good health and clinically alert. The dogs are roaming freely on property and they have access to water. The dogs has access to adequate shelter that can protect the dogs from all weather elements. I took a closer look at Bella and at the back next to the tail. Bella is starting to have a skin problem. According to Dave he gives the dog a bath once a month and he thought it an allergy

I educated Dave that he must buy Nexguard to help deal with internal and external parasites. It will help with the coat of the dog and his wife told me that they will buy Nexguard the following day as they didn't know about Nexguard.

The puppies were sold and according to Dave he couldn't look after a litter of 10 dogs. I offered a sterilization and he agreed to sterilize Bella.
