General Report Comments: Upon arrival I met Dave and shared a nature of complaint. He wanted to know the complaint and i replied i don't know.

Dave claims he know who the complaint is and granted me access to enter the property. 3 dogs were observed roaming freely and clinically alert. The dogs are kept in a clean living environment and has access to adequate shelter. Portable water is provided for the dogs in 5 liter container and there is no algae on this container.

Dave then explained that he knows about the incident of a cat and he did inform the tanant that there are no pets allowed on this property. Dave is the one who broke the fight while the dogs were attacking the cat and also the dog scratched the complainant daughter.

There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken regarding the act. The animals on this property are sterilized. I strongly believe the case can be closed until further notice.
