General Report Comments: Upon arrival i met Susan she explained that the owner is not home. The owner is no longer interested in a sterilization

I observed 3 adult dogs roaming freely on property and all the dogs appears to be in a good condition. They have access to adequate shelter and the living environment is clean and hygienic.

There is no dog that appears to be malnourished and there are no external parasites observed on the dogs. The puppies were given away to family members. There is chickenmash added to the main gate to ensure the dogs don't go out.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
