General Report Comments: Upon arrival i hooted and to my surprise the dogs were roaming freely on property.

Velo game me attention and i shared the nature of complaint. She had no problem as she is looking after the dogs while the owner is overseas and she showed me the enclosure where the dogs are kept when it the morning when people are about to leave the property.

The enclosure is adequate size and water is provided on that enclosure. According to Velo the dogs are kept in that enclosure for less then 2 hours and then they are left to roam freely. Two dogs were observed in a good condition and roaming freely on property. The dogs has access adequate shelter and water is provided. The living environment is clean and hygienic. Velo further explained that if the dogs are not in that enclosure in the morning they run on the road and it difficult to confine them as you can chase them for more then an hour.

I strongly believe the case can be closed. There is no contravention of the Animals protection act 71 of 1962 and there is no further action that can be taken.
