CONFINEMENT OF ANIMALS Free roaming - in property

General Report Comments: Upon arrival i met Navashan and he granted me access to enter the property.

The dog in question was observed roaming freely on property and appeared to be in good health. The dog is clinically alert and has access to adequate shelter. According to Navashan these allegations are false cos the dog will only make noise if he see the monkeys on the trees and they don't even hit the dog. The living environment is clean and hygienic. The property has lot of trees for shade on a sunny day and the dog has access to portable water.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken regarding the act.
