General Report Comments: Upon arrival i met Jackie and shared a nature of complaint.

She granted me access to enter the house. The dogs are house dogs. She denied that she left the dogs alone.

I observed two dogs in a good condition. Having access to water and shelter. The dogs are clinically alart and the dogs sleeps in the house. There is sufficient space for dogs to roam around and there was workers fixing a gate on site. The dogs have access to the house at all times and the dogs were not howling during the inspection.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken regarding the case.
