ANIMALS IN GOOD CONDITION	No ***	Coco was observed with a skin condition and overgrown nails.
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Coco was observed with a skin condition and overgrown nails.
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Upon arrival i met Melusi and i shared a nature of complaint.

He granted me access to enter the property and he told me no dog that appears to be injured all they were told by the neighbor is that a black dog was knocked by the car.

I observed the puppy and the puppy is clinically alert. It appears to be in a good condition and doesn't display any form of discomfort. I then observed Bob who appears to be slightly underweight and i questioned Malusi how often do they feed the dogs. He said twice a day and i advised they must ensure Bob is fed three times. I also added i advise they must feed puppy food as it has more nutrients or proteins. I advised also they must deworm the dogs.

I also observed a dog named Coco. The dog was observed to be an old dog and the dog has overgrown nails. Coco was also observed with a skin problem by the tail. Coco can still walk and all the dogs have access to shelter. Portable water is provided.

I issued a notice to comply

1. Seek veterinarian treatment for Coco within 5 days as Coco was observed with a skin problem.

2. Coco must be taken to the grooming palour for nail clipping within 5 days as Coco was observed with overgrown nails.

3. Bob must be fed three times a day and must be dewormed within 5 days.

You have an option to surrender the dog/s to SPCA.Unable to render the above mentioned may lead into actions taken against you for being in contravention of the animals protection act 71 of 1962 .
