General Report Comments: Upon arrival i hooted and shouted but no response.

Two dogs were observed roaming freely on property and they are clinically alert . One dog is slightly underweight while the other puppy is in a good condition.

The old dog was not seen at the gate and i contacted the owner Skhumbuzo who stated over the phone that there is a family emergency he had to attend two and he has given all the dogs dewormer and the old one was given Nexguard. He further stated that he will speak to his family about the old dog as it is not easy for him to make a decision alone as the old dog has the same age as his son
