General Report Comments: Upon arrival i hooted and shouted but no response.

I looked through the gate and observed two dogs clinically alert. Both dogs are roaming freely and one dog that was slightly underweight has gained weight. The living environment appears to be clean and the old dog was not seen from the gate .

I then contacted Mr Xaba to check his availability. Unfortunately he is at Umgababa and will be back after hours. However he confirmed the old dog nails were trimmed and was given nexguard. I then questioned when will he be available
