General Report Comments: Upon arrival i hooted and someone opened the gate.

I saw the enclosure where the dog is kept and i shouted Hello. Victors wife opened the wind and communicated with me but she didn't have an idea why the dog is kept in the enclosure.

The enclosure where the dog is kept is adequate size as it is well welded to ensure the dog doesn't escape. Victors wife gave me The number to contact Victor and he explained that the owner of the property has a pitbull. He can't let the dog roam freely.

The enclosure has a build up of feaces and i could tell due to white feaces that the place hasn't been cleaned for a long time. The dog appears to be in a good condition and the dog has access to shelter at all times. Water is provided for the dog in 5 liter.

I issued a warning

-To clean the animal/s living area within 72 hours and keep it clean at all times and free from parasites.

Ensure the living environment is cleaned and well maintained at all times.
