General Report Comments:

Upon follow up inspection i hooted and the gate opened.

No one did gave me attention as every room was closed. I went where the dog is kept and i observed the dog.

The dog appeared to be in a good condition and clinically alart. The living environment hasn't been cleaned as I observed build up of feaces. The dog has access to shelter and water provided in 5 litre bucket.

I issued a warning
-To clean ayhe animal/s living area within 48 hours and keep it clean at all times and free from the parasites.

Warning was plugged to the gate.

Victor phoned me when i was about to leave the property. He begged me not to leave a warning and i made it clear that there is no compliance on the 1st warning i left. If there is no compliance on this 2nd warning unfortunately i will take legal actions.
