General Report Comments: Upon arrival i hooted and i met Nhlanhla who told me I'm at the wrong address. I must go to 114 and that is the house that has chickens.

I met Bukani and shared a nature of complaint. He was pissed and told me that people must focus on their business.

He granted me access to enter the property and i observed a dog named Frosler roaming freely. The dog appears to be in good health and clinically alert. The living environment is clean and hygienic. There is a carport in the front where the dog sleeps during the day.

We went to the backyard with busani and there is a room that is build for the dog . It is adequate shelter and during certain weather conditions the dog will use the shelter. Portable water is provided for the dog.

On the right hand side there is an enclosure for chickens and there is netting around to ensure there is adequate shade. This enclosure is built under the tree. No chicken was observed sick and they have access to portable water.

I strongly believe the case can be closed. There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
