ANIMALS IN GOOD CONDITION	No ***	Dog has a skin problem.
VETERINARY PROBLEMS / HEALTH CO	Yes ***	Dog has a skin problem.
CONFINEMENT OF ANIMALS	Free roaming - in property	

General Report Comments: Upon arrival I Hooted and shouted but no response. I called Lionel and he didn't answer my calls

I went to the gate and observed the dog in question. Based on my observation the dog in question is not getting better and it was scratching itself. The living environment is clean and hygienic. The dog in question is clinically alert and has a skin problem.

I issued a warning

- Seek veterinarian treatment for your dog that was observed with a skin problem within 70 hours.
- Provide a veterinarian report email controller@kloofspca.co.za and you have an option to surrender the dog to the SPCA.

You need to get a second opinion as it appears the medication your dog is under is not effective or not working

When i was plugging a warning to the Gate
Lionel came out.

He then granted me access and i explained to him that the dog is getting worse based on my observation. He tried to convince me that the dog is getting better and I questioned if I'm lying based on my observation cos I'm not making this up.

He then acted as my friend as my friend trying to avoid getting a warning and i inform him that at the end of the day It has to be in writing that the animal must be seen by a veterinarian.

He signed the warning and received it.

When i walked out i was then approached by a lady who lives at number 10. She told me that the owner doesn't care about animals and i explained to her that I'm still investigating. If there is no compliance animals will be removed.
