General Report Comments: 12 dogs in total owned by 3 different people in a truck workshop. One dog had 5 puppies 3 of them were thin I convinced the owner to sign them over, he did and one of his employees took 2 that were in good condition.

One gsd had 3 puppies without shelter, the owner said when he touch them the dog hide them where they won't find I help him to prepare the shelter for mum and puppies because it was there and we put mum and puppies inside. They will phone me when they prepared to sterilize
