General Report Comments: Upon arrival i met Ravin and i shared a nature of complaint.

He granted me access to enter the property. I observed 2 dogs on the property and the LabX was aggressive. I requested him to put it in the house. Both dogs appears to be in a good condition and clinically alert. The dogs are house dogs. They have access to water and shelter. Zues is a swiss shepard and based on my knowledge Swiss Shepherd likes to howl. The cat on property appears to be in a good condition and good health. The property is adequately fenced.

There is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken. Both animals are sterilized. I strongly believe the case can be closed.
