General Report Comments: Upon arrival i met Nokwe and she granted me access to enter the property.

I shared a nature of complaint and Nokwe explained that the dogs don't go out at all. The dog in question was observed roaming freely on property and it has 6 puppies. Portable water is provided for the dogs and the living environment is clean and hygienic.

Two kennels were observed and the dogs can be protected from all weeather elements , however the dogs like to sleep at the veranda. The dogs can exhibit animal natural behavior and there is no chain seen on this property. I offered a sterilization and Nokwe told me she will call when they are interested so i can book on their behalf.

I strongly believe the case can be closed as there is no contravention of the animals protection act 71 of 1962 and there is no further action that can be taken.
