General Report Comments: Dog was kept in a 4by4 meters confinement because they've got tenants and the dog bites, she said her brother takes the dog for walk when he's back from work.

A dog was not thin it just looks old although she didn't know how old it was I advised her to derworm him because the dog's cort had rings of missing her which might coursed by worms.

There was weeds and broken branches where the dog was kept, warning was issued to clean the living area and derworm after 3 days I went back to check if the place was clean and dog was derwormed I'll go back in month time to see if the court is improving
