General Report Comments: Upon arrival i hooted no response. I whistled and 2 dogs came to the gate.

The dog that had external pirasites and one puppy came to the gate. Both dogs appears to be in a good condition and clinically alert. They have access to adequate shelter and water is provided.

I went to look on next door property where I observed the mother dog that was slightly underweight. She appears to be in a good condition and clinically alert. Only 3 puppies i observed from a distance and they appear in good health. Kennel is provided for the dogs.

I strongly believe the case can be closed. There is no contravention of the Animals Protection Act 71 of 1962 and there is no further action that can be taken.

Case closed.
