General Report Comments: Upon arrival i hooted and Malvern opened the gate.

He granted me access to enter his house to show me a cage where the rabbits are kept. I observed 3 rabbits kept in a cage and these rabbits can chase eachother in this cage as i was observing them. The rabbits are fed pellets and there is bedding provided. Portable water is provided for these rabbits and another part of the cage is covered so the rabbits can have adequate space.

I spoke to the owner why he has rabbits. He then told me that he likes to own them and further stated his plan that he wanna build an enclosure at the side of his property cos he will have a problem if they multiply.

I then educated Malvern about the water bowl that he must get rabbit drinking bowl at any vet shop so he doesn't need to fill water on the bowl at all times. I also told him that if these rabbits are playing there is a high chance that bowl.

To follow up in a months time to see changes.
