VETERINARY PROBLEMS / HEALTH CO	No
CONFINEMENT OF ANIMALS	Free roaming - in property

General Report Comments: Upon arrival i hooted several times and Mrs Dumakude came out.

I shared a nature of complaint and she didn't have a problem. She also confirmed that the dogs normally jump the fence.

I then observed a female dog named Rax which appeared to be slightly underweight and the 2nd adult dog is in a fair condition. I then questioned when last was these dogs Dewormed and Mrs Dumakude have no idea as her husband is at work. 2 puppies were observed in a fair condition and all the dogs at this property are clinically alert. The dogs have access to shelter and portable water. The dogs jumps on the fence which makes it difficult for the owner confine them Especially Rex and there were bricks placed at the gate to ensure the dogs don't open the gate.

I issued a notice to comply

1. Deworm all your dogs within 7 days.
2. Feed your dogs 3 times a day as they were observed slightly underweight.
3. Ensu your dogs are confined at your property at all times.
